

Quick Instruction Manual for SMART LED Lightning to USB Charge and Sync Cable (Part # 48900)

- 1- Please remove the SMART LED Cable from it's retail packaging.
- 2- Please connect the USB port to a compatible USB Power Adapter and plug it into a wall socket.
- 3- If you wish to charge your Apple Lightning device from your MacBook, simply plug the USB connector into your computers USB Socket.
- 4- Plug the Lightning Connector side of the cable into an Apple Lightning device (iPhone, iPad, iPod).
- 5- While charging, your SMART LED Cable will pulsate orange.
- 6- When your Apple Lightning device reaches a full charge state, the LED light will change to solid green.
- 7- The solid green light will eventually turn off if your Apple device is unattended completing the charging cycle. Apple's circuitry is designed to do this. If the green light is on or if the LED light is off, your Apple device is fully charged.
