

Quick Instruction Manual for Invisible Ice, Shortcuts and Languages Keyboard Covers

1- Please remove keyboard cover from the retail packaging.

2- Align the spacebar of your cover with the spacebar on your keyboard then lay down the EZQuest Cover. Gently smooth your keyboard cover from the center towards both sides, until the cover is seated properly. Now you are ready to type!

How do I clean my silicone-based keyboard cover?

We recommend hand washing both sides of the silicone keyboard cover with warm water, soft cotton cloth and mild soap. Shake off the excess water and air dry. To prevent damage, do not use an abrasive sponge, do not put in a dishwasher, washing machine, or expose it to extreme temperatures. Also do not use harsh detergents or chemicals on the cover.
