**Quick Instruction Manual for  
USB-C Card Reader 3 Port  
Part# X40011**

### **How to Connect to Computer:**

Connect the USB-C connector to your computer USB-C port and the rest of the cards that you need on your hub side.

### **USB-C Card Reader Compatible with CF, SD and Micro SD Storage Cards**

Read and write data, images, and video directly from the 3 port card reader to your USB-C equipped Apple computers. Card reader is compatible with any USB-C or Thunderbolt 3™ ready computers as well as USB-C ready devices with OTG support

for smartphones and tablets. It also comes with LED indicator which lights when in use. The three ports are designed to read or backup data from 10 different cards.

### **Plug and Play with Fast Data Transfer Speeds**

There is no need to install any drivers; just plug the adapter into your computer and you are ready to go. Transfer images, videos, music and data from your digital camera or other devices up to 5Gbps.

### **No Electromagnetic (EM) Interference**

Anodized aluminum design minimizes EM interference, for clear and compatible connection with no EM waves to disrupt your work on the computer.

### **How to connect to USB-C smart phone or tablet**

Note: Please make sure that your device has the same type of USB-C connectors. The best way is to compare your charging cable connector that comes with your device to make sure it is a USB-C connector.

### **Please follow steps below:**

- A.** Power down your smart phone/tablet.
- B.** Connect any of your cards to the X40011.
- C.** Connect the USB-C connector to your smart phone or tablet.
- D.** Restart your smart device
