- 3D and HDMI 2.0 Compliance
- Compact design without taking any space from your other ports
- Single Cable Solution
- Thunderbolt 1 and 2 Compatible
- Minimizes EM interference with Anodized aluminum sleeves on each end of the cable

## Active Mini DisplayPort to HDMI 4K 60HZ 2.2 Meter Cable

Seamlessly connect Mini DisplayPort or Thunderbolt™ based Mac's to any HDMI display. Our Mini DisplayPort/Thunderbolt™ 1 and 2 port to HDMI cable supports full HD output in 4K 60HZ with audio on most of today's MacBooks, MacBook Pro, MacBook Air, iMac, Mac mini or Mac Pro computers. You can easily watch or stream a movie or your personal video from your Mac on to your HDTV.

## Fully Compatible with Thunderbolt™ Port

Regardless if you have existing Mac with Mini DisplayPort or if you have Thunderbolt 1 or 2 our Mini DisplayPort Cable is fully compatible.

## Extend/Mirror Your Desktop

Mini DisplayPort/Thunderbolt™ 1 and 2 port to HDMI cable will let you extend or mirror your Mac's desktop on any HDMI display. Don't feel left behind because your Mac doesn't come equipped with HDMI. Our cable will solve your HDMI connectivity needs.

## All-in-One Solution

This sleek cable design comes with anodized aluminum casing on both ends to minimize EM interference. This cable combines the video and audio pass-through into one simple cable solution. The Audio and video are drawn from the Mini DisplayPort/Thunderbolt™ which eliminates cable clutter.

The single 2.2 Meter long Mini DisplayPort to HDMI cable solution provides flexibility in extending your desktop content from anywhere.
