Strong and Durable

Our DuraGuard® USB-C to USB-A cables are reinforced with Kevlar® core, nylon braided outer sheath, strain relief and strong aluminum connector housings. Kevlar® wraps around the outer cable as well as through the center of each inner cables core creating a very strong and durable design. This cable has been engineered for extreme durability and heavy everyday use that can withstand any twist, tug or tangle.

Compatible with USB 3.0/2.0 and USB-C Ready Devices with OTG

The USB-C to USB Cable lets you connect your USB hard drives and other USB devices. With this cable, you can also connect to older peripherals that support USB 2.0, as well as USB-C ready devices with OTG support for smartphones and tablets.

Universal Compatibility

Engineered from exceptional materials and hardware to ensure superior speed and reliability. Our cable is fully compatible with Qualcomm Quick Charge and most other high-speed charging protocols. A 56k Ohm pull-up resistor and 3A provides worry-free use with any device. Regardless of the type of USB-C device you have, this cable will work with any USB-C device and can transfer movies, music, or an entire photo library in seconds with 480Mbps transfer speed.

Charge with What You Have

If you already own a USB 3 wall charger, car charger or power bank, you can use them with the USB-C to USB Cable to charge your devices on the go or at home.
