DuraGuard® Tough Quality

Versatile Audio Cable

EZQuest DuraGuard® Stereo Audio Cable is an ideal solution for all your music needs. Featuring a 3.5 millimeter auxiliary jack at both ends with gold plated connectors, this versatile cable lets you connect a huge range of audio devices. Use it to play music from your smartphone on a portable speaker, connect your tablet to your car's stereo system, and more.

Seamless Audio Connections

The DuraGuard® Stereo Audio Cable provides a firm connection between your audio devices for crisp audio performance. Its quality construction helps minimize interference and noise, so you'll be able to listen to music and movie audio tracks without any crackling or cutouts.

Stay Connected

The Space Gray anodized aluminum finish and black nylon braided cable jacket provides a sleek and modern look that effortlessly coils up for easy storage in a bag or backpack. It's compact enough for easy travel, so you can take it wherever you go. But it is also long enough to reach across a car seat or under a desk, so you'll always have a comfortable connection.
