- Two US outlet plugs, each 15Amps, 125V AC, 60Hz
- Charging protection
- Charge any mobile or tablet devices
- Certificate ETL, CETL, and FCC
- Tamper-resistant receptacles

Charge Your USB Devices via Your U.S. Electrical Wall Socket

PLUG n' CHARGE North American Style Wall Socket is a dual receptacle device that is equipped with two AC outlets and two integrated USB ports for powering and charging many USB devices. The new PLUG n' CHARGE USB Wall Socket is the convenient and energy-efficient in-wall solution for powering and charging USB devices. Now you can charge and/or power up to four devices at once when using the USB ports and the National Electrical Code (NEC) compliant tamper-resistant AC receptacles, while eliminating unsightly clutter created by multiple cables and bulky power adapters.

Charge up to Four Devices at Once

Unlike other products that make your environment busy and crowded, the PLUG n' CHARGE USB Wall Socket port and outlet are tucked into the wall. This accessible design enables you to charge up to four devices simultaneously!

Ideal for DIY Upgrade

Our PLUG n' CHARGE is a basic "DIY" install or replacement for any 15 Amp circuit with a standard 16 cubic inch electrical box to blend seamlessly into the wall as a standard power outlet. The easy to use instructions make it very simple to finish this DIY upgrade.

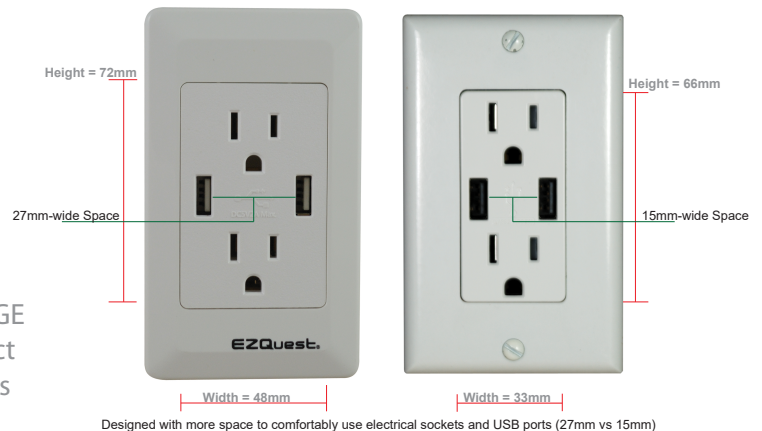

Money Saving, Energy Efficient Design

Offering a modern, centralized location for charging /powering USB devices, the Smart circuitry only outputs enough charging power required by the attached device.

Install With Confidence

Fully FCC, ETL and CETLL certified and featuring NEC compliant tamper-resistant AC receptacles, PLUG n' CHARGE offers peace of mind, confidence, and with its more compact design, you can have PLUG n' CHARGE installed in as little as 20 minutes!

EZQuest's USB Plug n' Charge Other USB Outlet Designs

Designed with more space to comfortably use electrical sockets and USB ports (27mm vs 15mm)

Specification:

- Part Number: X73692
- UPC Code: 694307736924
- USB Input: 90-250V~, 47-63 Hz
- Max Power Rating 1800Watts
- USB Electrical parameter DC5V, 2 Amp
- Electrical Rating 15 Amp, 125VAC, 60Hz
- Working Temperature: -15°, C~45°C
- No-load Power Consumption <0.3A
- One (1) year limited warranty

Compatible with USB-Enabled Devices Such As:

- Apple iPad™, iPhone™, iPod™
- Android™ tablets and phones
- Other USB-enabled tablets, phones and devices
- Galaxy Tab
- E-Readers, Nook, Kindle
- Samsung Galaxy phones
- Digital cameras
- MP3 players
- Bluetooth headsets, etc.
